EDUCATION

- 🎓 B.Tech. in Computer Science and Engineering, Uttarakhand Technical University | May 2013

TECHNICAL SKILLS

- ➔ **Programming Languages & Frameworks:** Java 17, Java 8, Hibernate, Spring Boot, Python
- ➔ **Cloud Platforms & Services:** AWS, Azure, GCP (Google Cloud Platform), Cloud Computing
- ➔ **DevOps & CI/CD Tools:** GitHub, Docker, Jenkins, Kubernetes, Terraform
- ➔ **Databases:** MongoDB, Oracle, PostgreSQL
- ➔ **Concepts & Technologies:** Microservices / Micro-services, Data Science
- ➔ **Enterprise & CRM:** Salesforce

CORE COMPETENCIES

- ➔ Cloud Architecture & Strategy
- ➔ Microservices & API Development
- ➔ Enterprise Application Development
- ➔ Cloud-Native Solutions & Deployment
- ➔ DevOps & CI/CD Automation
- ➔ Identity & Access Management (IAM)
- ➔ Scalability & Performance Optimization
- ➔ Security & Compliance in Cloud
- ➔ AI/ML Integration & Automation
- ➔ Leadership & Technical Team Management

CERTIFICATIONS

- ➔ AWS Certified Solutions Architect-Associate
- ➔ Salesforce Certified AI Associate

PERSONAL DETAILS

- ➔ **Date of Birth:** 07-03-1993
- ➔ **Address:** Noida, India
- ➔ **Languages:** English, Hindi

PROFILE SUMMARY

- ➔ **Seasoned Technical Architect & Java Expert** with **12+ years** of proven track record in designing and implementing **scalable, high-performance distributed systems** using **microservices architecture, Kafka, and cloud-native solutions**.
- ➔ Adept at **leading cross-functional teams** of up to **20 members**, driving architectural excellence, optimizing system reliability, and ensuring seamless **CI/CD integration** using **Docker and Kubernetes**.
- ➔ **AWS Certified Solutions Architect** with **expertise** in designing, developing, and deploying **scalable, high-performance cloud-based applications** using **Java, Spring Boot, and microservices architecture**.
- ➔ **Salesforce Certified AI Associate** with expertise in leveraging AI-driven insights to optimize CRM strategies, enhance customer engagement, and drive business growth.
- ➔ Key contributor to **government-backed Health ID projects**, leveraging expertise in **Java, microservices, and asynchronous communication** to build **resilient and scalable solutions**.
- ➔ **AWS-certified cloud specialist** with hands-on experience in **AI/ML, Python, and open-source projects**, bridging the gap between **traditional software architecture and cutting-edge AI-powered solutions**.
- ➔ Recognized for **exemplary performance** with multiple **"Employee of the Month"** award, demonstrating commitment to **technical innovation, leadership & business impact**.
- ➔ **Immediate Joiner, ready to drive cloud strategy, system architecture, and engineering excellence** for organizations focused on innovation and scalability.

WORK EXPERIENCE

IT Architect Specialist | TSYS | 04/2025 - Current | Noida

- ➔ Architected and implemented a scalable and efficient data purging service targeting MySQL, DynamoDB, and S3 buckets to automatically identify and remove obsolete or redundant data, significantly reducing infrastructure bloat.
- ➔ Achieved an estimated 35% reduction in company-wide operational and infrastructure costs by optimizing storage utilization and aligning data retention strategies with business needs.
- ➔ Automated infrastructure provisioning and deployment workflows using Terraform, enabling consistent, repeatable, and version-controlled setups across multiple AWS environments.
- ➔ Skills: Java 21, Python, Microservices Architecture, AWS, Terraform, Kubernetes

Lead Technical Architect | CoreEdge | 10/2021 - 07/2024 | Noida

- ➔ Spearheaded the development of a cloud management portal, leading to a 60% reduction in deployment time.
- ➔ Engineered a digital identity system for a national healthcare initiative, benefiting over 700 million patients.
- ➔ Designed an IAM solution that strengthened cloud security for enterprise clients, cutting security breaches by 80%.
- ➔ Skills: Java 17, Spring Boot, Microservices Architecture, AWS, Python

Senior Software Engineer / Team Lead | Dew Solutions | 11/2019 - 09/2021 | Gurgaon

- ➔ Constructed an Order Management System (OMS) that optimized negotiations for over \$200 million in annual supply chain transactions.
- ➔ Devised a reporting tool that enhanced buyer behavior insights by 20%, enabling suppliers to refine sales strategies.
- ➔ Skills: Java 8, Microservices Architecture, AWS, Hibernate, Spring Boot

Senior Software Engineer | Fidelity International | 08/2017 - 10/2019 | Gurgaon

- ➔ Built a high-performance platform managing \$500 billion in mutual fund transactions annually.
- ➔ Introduced a fund model management system that minimized manual errors by 80% and elevated advisor productivity by 30%.
- ➔ Skills: Java 8, Microservices Architecture, AWS, Spring Boot

Software Engineer | CenturyLink Technologies | 06/2015 - 08/2017 | Noida

- ➔ Automated production workflows, boosting efficiency by 30% and saving over 200 hours of manual labor monthly.
- ➔ Developed a provisioning service that efficiently processed over 100,000 high-speed internet requests annually.

Software Engineer | S-Beta Technology Pvt. Ltd. | 06/2013 - 06/2015 | Delhi

- ➔ Designed customer support tools that accelerated ticket resolution by 20%, handling more than 5,000 tickets per month.
- ➔ Enhanced pharmacy management systems, leading to a 15% increase in inventory accuracy across 10+ locations.

PROJECTS UNDERTAKEN

Modified Cookiecutter for ML and RAG

- ➔ Forked and enhanced the open-source Cookiecutter project to establish a structured Python-based framework for ML and Retrieval-Augmented Generation (RAG) projects.

- ➔ Streamlined project setup with a single-command execution, ensuring industry best practices and cutting setup time by 50%.

Ansible-Based Remote Software Deployment

- ➔ Designed an automation solution for deploying software packages on remote servers using Ansible.
- ➔ Optimized the installation process for essential software such as Python, Java, and Docker, increasing deployment efficiency by 40%.

AI Chatbot with PDF Upload

- ➔ Built an AI-powered chatbot using LangChain, allowing users to upload PDFs and receive contextual responses.
